

Today's lesson plan will require you to work TOGETHER to create a business plan. Follow the steps below.

1. Choose a business that you would both agree on.

(Example: Pet Sitting Business, Basketball Coaching, Bicycle Sales etc.)

Write your business: _____

2. Choose a name for your business.

(Example: M&M's Pet Sitting Business, Mason and Mackenzie Bicycle Company)

Write your business name: _____

3. Identify what materials you would need for a new business and estimate how much each item would cost.

(Example: See table below)

Material needed	Quantity (how many)	How much each item costs	Estimated Cost
Building to shelter dogs	0	\$0	None, we will use our house
Dog beds	5	\$20	\$100

Determine how much money you will need to start your business. Insert your responses in the table below

Material needed	Quantity (how many)	How much each item costs	Estimated Cost
			\$
			\$
			\$
			\$
			\$
			\$
			\$
TOTAL			\$

4. Determine how much you would charge each customer for the service or product you are offering.

(Example: \$35 a night for dog sitting. **Hint:** Use the previous question to determine what you would charge.)

Write the price of your services or products below:

Service or Product	Price
	\$
	\$
	\$
	\$

5. Make a sign for your business using your creativity to attract customers!

(Hint: Assign tasks to help you work together. Maybe one person designs a logo and another person chooses the colors. Work together and have fun!)

6. Time to setup your business! Choose one of your rooms to be the “store front” and decorate and setup your business the way you want your customers to see it. Put your sign up, use your imagination!

Example:
