Hello,

other technologists have had resolution or contact from you/human resources regarding their site change to Breast Health Centre. Can you please tell confirmation of site change prior to BHC opening Apr 23/25?

Thank you,

Breast Assessment Centre

Pasqua Hospital

Saskatchewan Health Authority | 306

Additional comments

Hey there. The new job that I am going to be in is not at the pasqua hospital. The current Breast assessment centre that is located inside the Pasqua Hospital is not going to exist in the coming month. We are moving into a new building and it will be called the Breast Health Centre. Does that change things? I will have no association to the pasqua hospital in this new position.

Additional comments

This movement was not done due to being awarded a new position. This was done to a reorganization within the department on the back end so that it shows you reporting to the correct manager. Therefore, you would not have been given a letter of offer. Nothing on your end changed. You are set up to be working at the Breast Assessment Centre at Pasqua hospital and Mammography on parliament avenue.

Hi,

Just needing some information. BAC is moving from PH to Central Crossing. This was supposed to happen on March 17 but has been pushed back to training starting there the week of April 7. the supervisor job, and the mammography specialty jobs would be amended to include the new site. At this time this has not happened.

Thank you,
