RE: Public disclosure of Glasgow PD records/information

Dear Mr. Basil:

As you are aware the Kentucky Office of the Attorney General (the "Office") is special prosecutor pursuant to KRS 15.190 to review the circumstances surrounding the death of Jeremy S. Marr. As part of the review as special prosecutor, the Office has obtained an investigative file created by the Kentucky State Police and containing collected information from the Glasgow police department. The Office's review of this matter is ongoing, and no prosecutorial decision has been made. The public dissemination of the investigative file and items within the possession of the Glasgow police department would be premature and will have an adverse impact on our ability to properly investigate, and, if appropriate, prosecute this matter.

Best Regards,
